

Premium Tile

Stand out from your competitors. Capture the job seekers' attention on Profesia.sk homepage

Premium Tile is an exclusive place for your banner, right in the Top employers section. It is 6 times larger than the other logos around it. There is always only one Premium Tile, which makes your company unique and hard to overlook.

Exclusive place right on the homepage

A premium placement in the TOP employers section. An upper left position and a size of 3x2 grants to capture the visitors attention.

Competitive advantage

Visually interesting banner can stand out among other logos on the homepage. We guarantee an exclusive and stable position.

Space only for one banner

Premium Tile always displays only one banner during the campaign. This way your banner will not interchange with a competitive one.

How to create an interesting banner?

While designing your banner, you need to remember to be visually interesting, but at the same time clear and simple. Choose a representative picture and a short headline. Your banner can be focused on strengthening your employer brand or on promotion of a specific job or job field.

Link your banner to your company's career subpage, your job ads list or an external career page.

Top zamestnávateľa

Chceš pracovať: **kreatívne a flexibilne, v pohodovom kolektíve, v naj office?**
