# CREDIT package

The best in one package

The MINI, STANDARD and PREMIUM advertising credit packages contain our most popular services, which you can now order at discounted prices. By choosing a package, you also get a discount on additional premium services.

Posting an advert costs only 1 credit. You can use credits at any time within 1 year of activation. You can even advertise on the last day of the package's validity. If you use up all the credits early, you can easily purchase another package of your choice.

### More than 1,000,000 visitors

You reach out to interesting candidates from the first day of posting due to the fact that you're advertising on the largest and strongest portal in Slovakia.

### 20% more views on average

Automatic topping of adverts in the STANDARD and PREMIUM packages can significantly increase the number of views. More views = higher chance of getting a reaction.

### The unique strength of employer brand

Statistics show that offers with a logo receive up to twice as many views. STANDARD and PREMIUM offers naturally attract more attention. Thanks to the logo, job seekers associate the advert with your brand.

### Discount on services in every package

Discounts are available from the most basic package upwards. You save up to 50% compared to the price of a single advert. The more you advertise, the higher the discount per job offer.

### Additional BONUSES when advertising:

Posting vacancies on our partner sites, thereby increasing the visibility of the advert.

We promote your job offer by e-mail to all candidates who have set the same parameters. That means they may be relevant to you.

Support from the Profesia team, we're happy to help you set the advert parameters correctly, or with the selection of additional services in order to get the most out of the posting.

Thanks to intelligent algorithms, we recommend job offers to job seekers based on their behavior. Your advert can thus be displayed in a special area as a recommended vacancy.
